

NETHRA K

Final Year IT Undergraduate

nethramay2006@gmail.com | [+91 7358109372](tel:+917358109372) | [Linkedin](#) | [Github](#) | [Portfolio](#) | Chennai -600116

Professional Summary

Information Technology undergraduate with hands-on experience in software development, full-stack application development, and problem-solving through academic projects and hackathons. Strong foundation in object-oriented programming, data structures and algorithms, databases, and software engineering concepts, with experience developing practical applications. Familiar with AI/ML concepts, cloud fundamentals, version control, and API-based application development. A quick learner with strong analytical, teamwork, and communication skills, Leadership and seeking to contribute to real-world technology solutions and grow in a dynamic IT environment.

Education

B.Tech - Information Technology (2023 - 2027)
Easwari Engineering College ,Chennai
Current CGPA : 8.62/10

HSC - Bio Maths (2021 - 2023)
Swamy's School , Chennai
Overall percentage : 77.17 %

Technical Skills

- Languages : Java, Python, Javascript
- Web Development : React.js, Node.js, Express.js, REST APIs, HTML, CSS
- Databases: MySQL, MongoDB
- Developer Tools: Git, GitHub, VS Code, Google Colab, Figma
- Cloud & Networking : AWS, Google Cloud
- Core CS : Data Structures and algorithms , Object oriented programming ,Problem solving
- AI & ML: Data preprocessing, Model training , Model deployment

Key Achievements

- Physically participated in prestigious national-level hackathons such as the Smart India Hackathon (SIH) and ZERO GRAVITY Hackathon conducted by the college.
- Participated in online top industry hackathons hosted by Uipath, Walmart, Adobe , TATA, Tutedude, Thoothukudi police Hacakathon

Certifications

- Oracle Certified Professional : Java SE 17 Developer
- Python Programming – Livewire Software Training Institute
- MERN Stack – Livewire Software Training Institute
- NPTEL – Education for Sustainable Development (Score: 98%)
- Cisco - CCNA 1, CCNA 2, CCNA 3

Projects

Customer Churn Prediction

Python | Machine learning | Flask | Joblib

- Developed an end-to-end machine learning application to predict customer churn through a web-based interface.
- Performed data preprocessing including feature scaling and encoding, and trained a classification model for churn prediction.
- Integrated the trained model with a Flask backend using Joblib for model persistence and enabled real-time prediction through the web interface.

E-Commerce Web Application (LibroMart)

React.js | Node.js | Express.js | MongoDB | REST APIs

- Developed a full-stack web application enabling college students to browse, search, and list books online for easier access to study materials.
- Built responsive frontend components using React.js and integrated backend services using Node.js and Express.js.
- Implemented RESTful APIs and frontend-backend integration to support efficient book management and user interactions.
